Expense tracker application which will keep a track of Expenses of a user on a dayto-day basis. This application keeps a record ofyour expenses and also will give you a category wise distribution of your expenses.
With the help of this application user can track their daily/weekly/monthly expenses. This application will also have a feature which will help you stay on budget because you know your expenses. Expense tracker application will generate report at the end of month to show Expense via a graphical representation. We also have added a special feature which will distributes your expenses in different categories suitable for the user. An expense history will also be provided in application.

SURVEY:

A. Intelligent Online Budget Tracker

The development of this application has been conducted in a stepwise mannerusing the well-defined methodology, RUP,customized according to the requirements of the system. Most of the goals set atthe start of the development phase have been met. Security problems like web security or network security have also been treated inthe design and development of the system, thus increasing the reliability of the system. Quality management issues have also beenhandled satisfactorily.

B. Online Income and Expense Tracker

This project is work more efficient than the other income and expense tracker. The project successfully avoids the manual calculation for calculating the income and expense per month. The modules aredeveloped efficiently and also in an attractive manner.

C. Family Expense Manager Application

As the result, the user can make use of this application in his/her daily life. After being used it can be a part of daily life to update and view daily expenses and family expenses. This helps to keep track of expenses& manage it for the user as they are busy in their daily routine, they are not able to keep track of their incomes & expenses.
